

# mongoDB Atlas

---

"MongoDB Atlas has allowed us to elevate our product to the next level," said **Justin McCormack, co-founder and CTO at Fleetpin**. "This put us in a position to rapidly scale with our exploding customer base. Most importantly, our most critical resources - developers and ops teams - can now focus on building the next killer feature. Using MongoDB Atlas was a no-brainer for our company."

"At Visma we're helping our customers turn business and admin processes into a genuine competitive advantage. To do that, we need a database-as-a service that has the ability to scale up and down, with a competitive per-hour pricing model," said **Bent Foyn, Development Manager at Visma Software International**. "We've already started migrating from our previous vendor to MongoDB Atlas and have been getting fantastic performance. The interface is so simple, and the process of creating a cluster was a breeze!"

"Our users have come to expect speed and simplicity from our PayIt mobile platform. MongoDB Atlas gives us peace of mind that the mobile services we are providing to our customers are running with always-on availability," said **Richard Garbi, Founding Architect at MobileGov**. "The platform allows us to focus on building great features, while ensuring we have a solid operational environment."

"With MongoDB Atlas, we are able to manage and operate our database infrastructure much more efficiently, in a remarkably cost-effective manner," said **H. Iwasaki, CEO at B-eee Technology, Inc.**

"MongoDB Atlas allows us to gain peace of mind that our most sensitive data is safe," said **Josh Chittick, CTO at PantreeCo**. "MongoDB Atlas powers our platform and we can now safely and securely deliver insights, with unprecedented speed and reliability."
